

# Books for Review

The current list of books for review includes some of the most exciting new books in applied anthropology to be published this year. Please take a close look and if there is anything that you particularly want to review, let us know!

*Anthropology in Action* is always happy to hear from potential reviewers at all stages in their academic careers. We welcome reviews of around 500 words for a single book, but we are also keen to include reviews comparing two or more works, for which the word length is negotiable. We currently have a number of books awaiting review. If you are interested in reviewing any of the books on the list below, please contact the reviews editor Jennie Morgan (jennie.morgan@york.ac.uk). However, please also be aware that we can request recent publications (within the last year) from publishers, so please feel free to let us know of any books that you would like to review within the field of applied anthropology, and we will do our best to get them for you.
